

# Download Geometry Chapter 1 Postulates

Euclidean geometry is a mathematical system attributed to Alexandrian Greek mathematician Euclid, which he described in his textbook on geometry: the Elements. Geometry (from the Ancient Greek: γεωμετρική; geo- "earth", -metron "measurement") is a branch of mathematics concerned with questions of shape, size, relative ... Use your knowledge about the slopes of parallel and perpendicular lines to solve some problems. For example, what's the equation of the line perpendicular to  $y=3x-3$  ... When we have two triangles, how can we tell if they're congruent? They may look the same, but you can be certain by using one of several triangle...
